

## Bug Eyes

Mt. Joy

On the day you left I could tell by your text that you were gonna ruin my life  
Cause bug eyes get a good look at the windshield  
And in that water dark dark water eyes could see no farther than my hands  
You said you wanted a plan  
May you always look forward and may all your love be returned  
There will be peace, there will be light on you, there will be colors for you  
To come home to  
I'm always waiting for you girl, I'm always waiting  
So maybe I'll wait, I'll wait, I'll wait, and maybe I'll wait too long  
You were the first but you won't be the last if I keep traveling on  
Always look forward, and may all your love be returned

Hold on tight I think I might have wasted all my time on fear  
But if I were would you be so rude and tell me what I have to hear

Let it kill let it  
Alright  
But are we alright?  
You let it kill, let it learn, let it lie  
Let it fall out of the corner of your eye

I live out on the range now but I can't complain  
I had everything

Alright  
But are we, are we alright?  
You let it kill, let it learn, let it lie  
Let it fall out of the corner of your eye

To live and die and see the world through someone else's eye  
To live and die and see the world through someone else's eye  
I live out on the range but I can't complain I had everything

Alright  
And then are we, are we alright?  
You let it kill, let it learn, let it lie  
Let it fall out of the corner of your eye

To live and die and see the world through someone else's eye
