

Coyote

Mt. Joy

Come on, get on the bus
There's room for all of us
Come on, get on this bus
It's gonna take your trust

That one, that one, that one, my one
That one, that one, that freak, that one
That walk, that walk, that freak, that walk
That walk underneath blue sky
The river wanders by
Woo

Catch the feeling that you wanna get lost
Get lost, get lost
Before we turn to dust
Coyotes on the run

That one, that one, that one, my one
That one, that one, that freak, that one
That walk, that walk, that freak, that walk
That walk underneath blue sky
The river wanders by
Woo

Together, together, together, together
Coyotes together, coyotes together
Together, together, together, together
Coyotes together, coyotes together

If we're gonna go, better go together
Times like these don't last forever
If we're gonna go, better go together
Coyotes together, together, together

If we're gonna go, better go together
Times like these don't last forever
If we're gonna go, better go together
Coyotes together, together, together
Ay
The river wanders by, ay
Woo

Together, together, together, together
Coyotes together, coyotes together
Together, together, together, together
Coyotes together, coyotes together

That one, that one, that one, that one
That one, that freak, that one
That walk, that walk, that freak, that walk
That walk underneath the moonlight
