

Phenomenon

Mt. Joy

Hello, yah, from this plastic garden
You'll loathe having ever started this love
This love where nothing grows

All we are, this phenomenon is the powerful drug
That leads me on, baby, lead me on in and out of every song
All we are, this phenomenon is the golden one
So lead me on, baby, lead me on 'cause you're my phenomenon

I stick my head out the window, trace the skyline
Tried enough to begin with, but I can't get you off my mind
And if we don't cut the roots
Truth bares her fruit on a long vine that you'll never unwind

So if you're gonna lie to me, give it to me sweet
Give me something every memory needs

All we are, this phenomenon is the powerful drug
That leads me on, baby, lead me on in and out of every song
All we are, this phenomenon is the golden one
So lead me on, baby, lead me on 'cause you're my phenomenon, and on

Hello, from this plastic garden
You'll loathe having ever started this love
This love where nothing grows
