

Dear Saint, we miss you so
Where do all the legends go?
Dear Saint, we miss you so
Where do all the legends go?
We were told you were real, weren't you so?

Who would you die for? Who would you die for?
List their names in the stars
Who would you lie for? Who would you lie for?
Is she laying in your arms?
Sweet summer sweat like you could never forget
I'm gonna figure this out
Before we all close our eyes and drift into the night

It's been said he was the bravest elephant
Don't let 'em fool ya or try to school ya
Just be yourself and no one else
And when we meet again I'll be the bravest elephant

Who would you die for? Who would you die for?
List their names in the stars
Who would you lie for? Who would you lie for?
Is she laying in your arms?
Sweet summer sweat, like you could never forget
I'm gonna figure this out
Before we all close our eyes and drift into the night

Who would you die for? Who would you die for?
List their names in the stars
Who would you lie for? Who would you lie for?
Is she laying in your arms?
Sweet summer sweat, like you could never forget
I'm gonna figure this out
Before we all close our eyes and drift into the night

Dear Saint we miss you so
Where do all the legends go?
