

# Funky Constellation

Mtume

Come fly, leave this world behind you  
To a deeper space and time ahead  
Leave this world of agitation  
Funky constellation

Follow the music of your mind  
Let it take you far beyond the sky  
Unlock the secrets of desire  
Funky constellation

Dance with the children of desire  
Bionic baby, sure looks good to me  
A cosmic disco stimulation  
Don't you wanna go there?

Remove that chain from your brain  
And funkatize reality  
Join us in our celebration  
Funky constellation

Fly with us...  
We wanna take you, we wanna take you  
Give us your mind  
We wanna take you, we wanna take you  
Leave this world behind  
We wanna take you, we wanna take you  
We wanna take you (we wanna take you)  
We wanna take you (yeah)  
Give us your mind...  
We wanna take you (let's take you)  
We wanna take you (to a deeper space)  
We wanna take you (and time)  
We wanna take you

Funky constellation!  
All aboard! Let's fly, let's fly!  
Funky constellation!  
I wanna leave...  
Funky constellation!  
Just the sky  
Funky constellation!  
Let the galaxies come flying by...  
Funky constellation!  
Funky constellation!  
Kiss this world goodbye...  
Funky constellation!  
Deeper space and time...  
Funky constellation!
