

# Green Light

Mtume

Green light, let's go  
You and me together, baby don't you know  
Green light, let's go  
You and me together, baby don't you know

Looking at you from a point of view  
"What's happening baby?" "How do you do"  
I like the way you shake it up just right  
My eyes are glued on you tonight  
I'm giving you the go-ahead  
Hear what I said  
What you gonna do? It's up to you  
Check out my signal comin' on to you

Green light, let's go (yeah, yeah)  
You and me together, baby don't you know (don't you know?)  
Green light, let's go (baby don't you know)  
You and me together, baby don't you know

I'm coming at cha, my body's hot  
I'd like to see just what you've got  
It's really clear that you're the one  
Let's get together, and have big fun  
I'd love to ride down your highway  
Ooh girl, come on baby  
Won't you try it my way  
Have no fear... the road is clear

Green light, let's go  
You and me together, baby don't you know  
Green light, let's go (I'm comin' at cha)  
You and me together, baby don't you know  
Green light, let's go (woo-hoo)  
You and me together, baby don't you know  
Green light, let's go (I'm gonna get cha)  
You and me together, baby don't you know (yeah, yeah)

Green light, let's go (move it all around)  
You and me together, baby don't you know  
Green light, let's go (shake it down, girl)  
(Shake it, shake it down, girl)  
You and me together, baby don't you know  
(My body's hot for you baby)  
Green light, let's go (don't stop, girl)  
You and me together, baby don't you know  
Green light, let's go  
You and me together, baby don't you know  
(You mean a lot)
