

## Laugh Live Love

Mud

Laugh - dance me on your finger  
Live - and I love to linger  
Love - all I need is you now give it to me.  
Laugh - and I'm laughing with you  
Live - I can't live without you  
Love - all you need is me now just wait and see

Don't you know that I'm losing sleep at night  
The way I'm feeling just don't seem right  
Seems the things that you do and my feelings for you  
Are never gonna change  
Gonna tell the world about it  
We just gotta laugh, live and love.

Laugh - don't put me down  
Live - 'cos I've been around  
Love - I found out what it's all about  
Laugh - so don't deceive me  
Live - and you'll believe me  
Love - when I tell you I need you baby

I don't know where my life will lead tonight  
Heaven knows where you shine your love light  
Seems the things that you do  
and my feelings for you  
are never gonna change  
Gonna tell the world about it  
We're just gotta laugh, live and love.

(Laugh, live, love)  
(Laugh, live, love)

I don't know where my life will lead tonight  
Heaven knows where you shine your love light  
Seems the things that you do and my feelings for you  
Are never gonna change  
Gonna tell the world about it  
We've just gotta laugh, live and love.

Gonna tell the world about it  
We just gotta laugh, live and love.

Gonna tell the world about it  
We just gotta laugh, live and love.
