

Beautiful World

Mudcrutch

Woke up this morning
I was thinking about it
I was thinking about a life

Yeah the one that we're livin'
And the one that we're given
And the things that turn out right

Like the stars above me
And the sun that's shining
I don't always understand

But with you beside me
And the love to guide me
I guess I'll make my stand

It's a beautiful world
So hold me tight
I had to fight
Every day of my life
It's a beautiful world

Take it for granted
That I'm off to the ocean
Floating around the sea
So much before me
And there's so much behind me
In this world of mystery

It's a beautiful world
So hold me tight
I had to fight
Every day of my life
It's a beautiful world

Many a man has been broken
Feeling what I feel for you
Many a promise been spoken
Over you... over you...
Over you... over you...

Woke up this morning
I was thinking about it
I was thinking about the life

Yeah the one that we're livin'
And the one we're given
And the things that turn out right

It's a beautiful world
So hold me tight
I had to fight
Every day of my life
It's a beautiful world
So hold me tight
I had to fight
Every day of my life

It's a beautiful world
