

My Love Strikes Like Lightning

Muddy Waters

My love strikes like lightning
And it will hit you just like a falling tree
My love strikes like lightning
And it will hit you just like a falling tree
Oh, you know it's not a pain that'll hurt you
But it will leave you in such a misery
My love strikes like lightning
And it'll get all in your bloodstream
Oh, you know my love strikes like lightning
And it'll at all into your bloodstream

Oh, look at my baby laughing at me hah hah hah hah
Saying "Muddy I know just what you mean"
(Well alright baby!)
My love strikes like lightning
It will shake the teeth up in your mouth
Oh you know my love strikes like lightning
Will shake the teeth up in you mouth
Oh, you know I know my baby she's hip
And this little girl she know what I'm talking about
