

Let's Kill Yourself Live Again

Mudhoney

Let's kill yourself live again
Just like we did last winter
Everyone will remember when
You killed yourself life
Yeah you'll be famous again
You'll gain many new friends
Who will watch you do your thing
On their little screens
It feels so goddamn good
To give the people what they need

Kill yourself live
Kill yourself live
Kill yourself live
Kill yourself live
Do it for the likes

Get creative
Show 'em what you got
Do it down and dirty, you'll make it
Funny as fuck
Jump out the window
Land on the banana peel
Cross the Kremlin
Crush and burn driverless car
Do the twist in a giant blender
Brush your teeth with the jigsaw
Smash your tail light and drive
Till you get pulled over

Kill yourself live
Kill yourself live
Kill yourself live
Kill yourself live
Do it for the likes

You're such a special child
You'll be memorialized!
They'll ask how society failed you
They'll pass along your name

And you'll live on
And you'll live on
And you'll live on
You'll live on in digital garbage
You'll live on in digital garbage
And you'll live on
Lest we forget
