

Move Under

Mudhoney

When you're on top
They're gonna take their shots
You gotta find cover
And interrupt their plot

You gotta dig deep
Down to the core of those false beliefs
Undermine the foundation
Of the lies that they repeat

You gotta move under
(You gotta move under)
Yeah you gotta move under
(You gotta move under)
You gotta move under
(You gotta move under)
'Till it all comes down

When you're on top
They're gonna take their shots
You gotta find cover
And interrupt their plot

You gotta move under
(You gotta move under)
Yeah you gotta move under
(You gotta move under)
You gotta move under
(You gotta move under)
'Till it all comes down
