

# Paranoid Core

Mudhoney

Robots and aliens stealing jobs  
They're bringing drugs, they'll rape your mom  
Beware the city's dazzling lights  
Where dykes are waiting to steal your wife

I stoke the fire in your paranoid core  
I stoke the fire in your paranoid core  
I feed on your fear

Vaccines, chemtrails, false flag plots  
Government camps, Sharia Law  
Invest in gold, squirrel away food  
Stockpile guns, hoard your fuel

I stoke the fire in your paranoid core  
I stoke the fire in your paranoid core  
I feed on your fear

Consumed by thoughts of thick black cock  
Go hunt them down dressed like a cop  
Fight the Jews, homos, Muslims, Chinese  
Playing militia in the trees

I stoke the fire in your paranoid core  
I stoke the fire in your paranoid core  
I feed on your fear
