

## 2 Birds

Mugison

I saw two birds,  
and you saw them too  
We thought,  
it, was, all, too sweet

And you call,  
and gave me a number  
If I needed  
Just so I know

We drove that night  
We know there's a high,  
there's a high  
We stayed up late,  
and slept all day  
I, we will try

It was so hard  
to come on to you  
Had to ask..  
It, has, come to this

She thinks  
with her finger  
on her nose,  
as to point a direction

We drove that night  
We know there's a high,  
there's a high  
We stayed up late,

and slept all day

I, we will try

Got to love her drive

We talked and turned, turned

Got to love her drive

We talked and turned

Turned, turned things we've tried
