

# Devil In Your Eye

Mumford & Sons

She was darkened but light-headed in a day dream  
Earning from her eyes down to her knees  
Some kind of love  
Tonight I can't tell if it's love or hate  
How smooth they are and quick to interchange  
Some kind of love

I'll be the devil in your eye  
If it's what you need to heal  
I'll be the devil in your eye  
If it'll change the way you feel

Hold my breath, I know it's me you're gonna blame  
Blame my mother, blame my mood, it's all the same  
Some kind of love  
Tonight I can't tell if it's love or hate  
How smooth they are and quick to interchange  
Just some kind of love

I'll be the devil in your eye  
If it's what you need to heal  
I'll be the devil in your eye  
If it'll change the way you feel

Bout some kind of love  
What are you holding on to?  
Some kind of love  
When you're scared you're gonna lose  
Some kind of love  
What are you holding on to?  
Some kind of love  
When you're scared you're gonna lose

(Some kind of love  
What are you holding on to?  
Some kind of love  
When you're scared you're gonna lose  
Some kind of love  
What are you holding on to?  
Some kind of love  
When you're scared you're gonna lose)

Some kind of love (you're holding on to)  
Some kind of love (when you're scared you're gonna lose)  
Some kind of love (you're holding on to)  
Some kind of love (when you're scared you're gonna lose)  
Some kind of love (you're holding on to)  
Some kind of love (when you're scared you're gonna lose)  
Some kind of love (you're holding on to)  
Some kind of love (when you're scared you're gonna lose)
