

Woman

Mumford & Sons

Woman
Caught behind those burning eyes
Tangled up in morning white
Do you ever really know
Can you ever really know

Woman
Watch her take me by surprise
When she lets me call her mine
Do you ever really know
Can you ever really know

And I don't know the loneliness you've known
I don't hear the frosty words echo inside
When you're gone again

I can't read your mind though I'm trying all the time
There's something I don't know, I can see it in your eyes
As the night ascends, all will slow again
I am left in awe of the woman I adore

Woman
I never had such a sight
Burn itself onto my mind
Do you ever really know
Can you ever really know

Say the sun doesn't shine for you
I hope you learn that that's not true, in time
When you're gone again
Just as long again

I can't read your mind though I'm trying all the time
There's something I don't know, I can see it in your eyes
As the night ascends, all will slow again
But I am left in awe of the woman I adore

I can't read your mind though I'm trying all the time
There's something I don't know, I can see it in your eyes
And as the night ascends, all will slow again
But I am left in awe of the woman I adore
