

## These Things Move In Threes

Mumm-Ra

Moving on  
I can see  
These things moving  
Please  
One down, and I'm on my knees  
So please don't take this away from me  
I hope that you know that the world is still spinning around  
I hope that you don't let the weight of it all get you down  
It's just to say  
I'm on my way

My head is filled with disease  
At least my body is free  
Of black cans, tempting the devil in me  
And walking these streets by the sea  
I hope that you know that the world is still spinning around  
I hope that you don't let the weight of it all get you down  
It's just to say  
I'm on my way

The last time I came around  
I saw you  
You never looked so proud  
Looking back, I wish I was there now  
Talking about some girl  
How she'd ruined my life somehow  
How she'd ruined my life somehow
