

Ego, ego  
Now I have done it again  
I've forgotten what it is to be human  
I am energy  
I am nothing greater than  
What I give and what I take from another one

You are the moon, I am the moon  
You are the sun, I am the sun  
You got me riding on your flow  
We're on our way  
To the maximum

Syne-Synergy  
You have shown me much of it  
You reflect it in my heart like a diamond  
There is beauty moving underneath our skin  
When we open up our minds in unison

You are the moon, I am the moon  
You are the sun, I am the sun  
You got me riding on your flow  
We're on our way  
To the maximum

You are the moon, I am the moon  
You are the sun, I am the sun  
You got me riding on your flow  
We're on our way  
To the maximum

And if you push, then I will pull  
And if you go, I will follow  
And if you pull, then I will push  
And if you go, I will follow

You  
Are the moon, I am the moon  
You are the sun, I am the sun  
You got me riding on your flow  
We're on our way  
To the maximum

You  
Are the moon, I am the moon  
You are the sun, I am the sun  
You got me riding on your flow  
We're on our way  
To the maximum
