

# Shooting Star

MUNA

I heard there's a few different people you're talking to  
I wonder if you lose track of them some of the time  
I'm laughing 'cause I know I only just met you  
But you're already spanning skylines inside of my mind

And tonight when I closed that door  
I wanted to turn back  
But when I see a shooting star  
I stay out of its path

And that's what you are  
You're so bright  
You'd burn my eyes  
And you'd move too fast  
So I say goodnight  
Make it home  
Like I'm making a wish  
On you, from afar  
You, my shooting star

I know what you wanted because I wanted it too  
To be in your light, consumed and erased  
But your light doesn't stay, you'd take it away too soon  
You'd leave me hung over the moon, stranded in space

So even though tonight when I closed that door  
I wanted to turn back  
I know when I see a shooting star  
To stay out of its path

And that's what you are  
You're so bright  
You'd burn my eyes  
And you'd move too fast  
So I say goodnight  
Make it home  
Like I'm making a wish  
On you, from afar  
You, my shooting

Starlight, star bright  
The only star I see tonight  
I wish I may  
And I think I might regret this either way  
If I let you in my heart  
Or keep you in the dark  
So I love you from afar  
You, my shooting star
