Muni Long

Go 'head, girl, two-seater in my town down, yeah  
With my sister, bitches with some attitude, all day  
If she don't fuck with you, I'm on the same thing

That my BFF, she the shit  
Sister from another mister, that my twin  
Thick and thin, just like that  
Have my back  
If your bestie in the club, where she at? (Point her out)

If she lyin', then I'm lyin', I ain't tellin'  
Demon time, make you feel like it's heaven  
Started from the bottom, she the one I split my bread with  
PJs on a PJ, flyin' foreign, it's expensive  
Duel crown every time she my driver  
She gon' slide, we gon' slide on her arrival  
We the baddest in the world, can't name nobody badder  
It's just me and her, nobody else don't even matter

That my BFF, she the shit  
Sister from another mister, that my twin  
Thick and thin, just like that  
Have my back  
If your bestie in the club, where she at?

That my BFF, that my sis  
Sister from another mister, that my twin

You know I can't trust none of these other hoes  
Not at all, yeah, yeah, yeah

Anybody thinking they could fuck with us
