

Nuttin Like This

Muni Long

I never felt
Nothin' like this
Nothin' like it
I never felt

I never felt nothin' like this
And I don't want it to end
We can't be friends
If I don't see you again
I never felt nothin' like this

This shit feel like a movie
Like it's not real
Like we made the whole thing up
Like a fairytale
You was down when nobody was
Now it's we, baby, now it's us
I dunno if it's really love I just know that I

I never felt nothin' like this
And I don't want it to end
We can't be friends
If I don't see you again
I never felt nothin' like this

I never felt nothin' like this
Never had nothin' like it
What is this? I think I like it
What is this? I think I like it
I like it
I like it

It feel like
You was made
And then I was made
And then we was made for each other
We went around the whole world
Just to end up back with each other
All night rollin' in the sheets
We both knew it was meant to be
Think I know where I wanna be
I'm right where I wanna be

I never felt nothin' like this
And I don't want it to end
We can't be friends
If I don't see you again
I never felt nothin' like this

Never felt nothin' like this
Never had nothin' like it
What is this? I think I like it
What is this? I think I like it
I like it
I like it
Never felt nothin' like this
Never had nothin' like it

What is this? I think I like it
What is this? I think I like it
I like it
I like it
Never felt nothin' like this
Never had nothin' like it
What is this? I think I like it
What is this? I think I like it
I like it
I like it
Never felt nothin' like this
Never had nothin' like it
What is this? I think I like it
What is this? I think I like it
I like it
I like it
Never felt nothin' like this
Never had nothin' like it
What is this? I think I like it
What is this? I think I like it
I like it
I like it
