

## Reverse (Interlude)

Muni Long

Light green gas pedal let the window down  
Turn right with the steering wheel I spin that bitch around  
Buss a uey with the trunk low dragging on the ground  
Cruising in my drop top with the ceiling down

I'm talking Bentleys, Ferraris, McLarens, Ducatis  
Billions by the barrel I got Bibles worth Bugattis  
Maybachs and Royces I got so many choices  
And when I flip a switch I hear like 50-leven voices

It be like vroom vroom vroom vroom bloop bloop bloop skirt (whe  
w whew whew)

That's the sound it make when I reverse

It be like vroom vroom vroom vroom bloop bloop bloop skrrt (woo  
woo woo)

That's the sound it make when I reverse

It be like vroom vroom vroom vroom bloop bloop bloop skrrt (woo  
woo woo)

That's the sound it make when I reverse

It be like vroom vroom vroom vroom bloop bloop bloop skrrt (woo  
woo woo)

That's the sound it make when I reverse
