

# Superpowers

Muni Long

Without you in my life, so far, everything's alright  
I know the day we meet, you will be the one for me

The synchronicity is how I know it's meant to be  
It's no coincidence that you got everything I need  
We fit so perfectly, we got that chemistry  
What I've been waiting for my missing puzzle piece

If I attracted you, I'm always attracting things  
How come my super powers don't work on you and me?  
I know that loving you gon' take some super strength  
So how come my super powers don't work on you and me?  
Now I'm attached to you with invisible strings  
How come my super powers don't work on everything?  
'Cause sometimes loving you might take some super strength  
So how come my super powers don't work on you and me?

You make me tell the truth even when I don't want to (Even when I don't want to)  
My charms don't work on you (I don't know what to do)  
At all, so it ain't no use

The synchronicity is how I know it's meant to be  
It's no coincidence that you got everything I need  
We fit so perfectly, we got that chemistry  
What I've been waiting for my missing puzzle piece

If I attracted you, I'm always attracting things  
How come my super powers don't work on you and me?  
I know that loving you gon' take some super strength  
So how come my super powers don't work on you and me?  
Now I'm attached to you with invisible strings  
How come my super powers don't work on everything? (Everything)  
'Cause sometimes loving you might take some super strength (You, strength)  
So how come my super powers don't work on you and me? (Powers)

And it seems like just when love (Love)  
Was the last thing on my mind (My, my mind)  
And when I was gonna close the door  
You walked into my life

Yeah  
Yeah  
Now, if, if I  
If I

If I attracted you, I'm always attracting things  
How come my super powers don't work on you and me? (Don't work on you and me)  
I know that loving you gon' take some super strength (I know, oh)  
So how come my super powers don't work on you and me? (Don't work on you and me)  
Now I'm attached to you with invisible strings (With invisible strings)  
How come my super powers don't work on everything? (Don't work on everything)  
'Cause sometimes loving you might take some super strength (Loving you, super strength)

So how come my super powers don't work on you and me? (Super powers, you and me)
