

Backdraft

Municipal Waste

Underneath the boiling caldrons
Of surrounding flame
A veteran from the Windy City
Underneath the boiling caldrons
Of surrounding flame
A veteran from the Windy City
Risks his life again

A smartly set up fire
Placed by pros and politicians
Lights an enormous lethal blast
From the moment of ignition

Out of control the fire rages
While the buildings wrecked
Who is gonna be the hero?
Who the fuck do you expect?
