

## Parole Violators

Municipal Waste

The gavel hasn't fallen  
I'm still free  
On borrowed time  
We'll wait and see

Let's not sit here and worry about the consequences  
I think I'd rather cause more trouble and get ripped senseless

They let me get out to sort my affairs  
Like it really matters  
I'll never go back  
Lets get out of here  
Parole violators

And if they find me  
Because I jumped parole  
Back to the big house is where I'll go

So lets not waste time  
And discuss where all the things went wrong  
This just may be out last chance to destroy it all

Honestly do you think I really care?  
My whole worlds been shattered  
Nothing to gain  
I'm getting out of here  
Parole Violators  
I'm never going back  
Fuck you man

They let me get out to sort my affairs  
Like it really matters  
I'll never go back  
Lets get out of here  
Parole violators
