

## Butterflies

Munn

I'm still getting butterflies like the first time  
Girl, you're gonna have be nervous for my whole life  
Oh my, wouldn't have it any other way

So, stay  
I'll chase your heart into the bay  
My legs give out and I look gray  
I'll love your heart to the grave  
Afraid the words couldn't say  
What a lifetime of us will bring  
But I'm gonna give you my everything

All or nothing  
Falling in head first  
Running straight to  
You and I were made for love till we return to dust

There's no getting over you if I wanted to  
You could offer me the world, it isn't hard to choose  
Oh my, wouldn't have it any other way

So, stay  
I'll chase your heart into the bay  
My legs give out and I look gray  
I'll love your heart to the grave  
Afraid the words couldn't say  
What a lifetime of us will bring  
But I'm gonna give you my everything

All or nothing  
Falling in head first  
Running straight to  
You and I were made for love till we return to dust

So, stay  
I'll chase your heart into the bay  
My legs give out and I look gray  
I'll love your heart to the grave  
Afraid the words couldn't say  
What a lifetime of us will bring  
But I'm gonna give you my everything

All or nothing  
Falling in head first  
Running straight to  
You and I were made for love till we return to dust

I'm still getting butterflies like the first time  
Girl, you're gonna have be nervous for my whole life
