

# dangerously anxious

Munn

Who's gonna break my heart?

I got some pieces of me  
I ain't so proud of  
I've got a rough history  
I've been around, love  
I went from down on a knee  
To being left in the dirt  
I'm paranoid like a freak  
So, if I leave first

Who's gonna break my heart?

I'm scared to stay  
But would hate to go  
You could be the one  
But you never know  
Listen when I tell you to run  
Right back to where you came from  
I'm dangerous  
Don't get caught on us  
I know you thought we're a home run  
But I'm dangerously anxious when I love

I've been so desperate to change  
I wanna love you  
I'm sick of walking away  
When I should walk through  
But I don't know how to stay  
I'm so afraid to get hurt  
It's probably better this way  
'Cause if I leave first

Who's gonna break my heart?

I'm scared to stay  
But would hate to go  
You could be the one  
But you never know  
Listen when I tell you to run  
Right back to where you came from  
I'm dangerous  
Don't get caught on us  
I know you thought we're a home run  
But I'm dangerously anxious when I love

Now there's too many hearts that I broke  
All out of fear of the unknown  
It'd be better if you would just go  
'Cause some day I will if you don't

So, run  
Right back to where you came from  
I'm dangerous  
Don't get caught on us  
I know you thought we're a home run

Just run  
Right back to where you came from

I'm dangerously anxious when I love
