

# Empty Eyes

Munn

I gave up everything to be right there  
You didn't say a single word or show that you cared  
I let my guard down so you could see  
I felt those empty eyes stare back at me  
Your empty eyes back at me (Back at me)

Watch my heart break to pieces  
Is this what you needed? I know  
I know, you don't love like I loved you  
And you never did all along  
Tell me I'm wrong

And now the rains will fall  
And so will I this time  
And I won't get back up  
'Cause I gave it all just to watch you live your life  
You didn't care for mine

You hear my words now like they're just wind  
I know you feel them pass by  
But not thought of again  
Easy for you just to let them go  
You play the part like it hurts  
But you'll never know  
The pain you cause that I won't show

Watch my heart break to pieces  
Is this what you needed I know  
I know you don't love like I loved you  
And you never did all along  
Tell me I'm wrong

And now the rains will fall  
And so will I this time  
And I won't get back up  
'Cause I gave it all just to watch you live your life  
You didn't care for mine

Who said it? You said that  
It's you and I for forever  
Who said it? You said that  
We'd take on the world together

Who said it? You said that  
It's you and I for forever  
Who said it? You said that  
We'd take on the world together

And now the rains will fall  
And so will I this time  
And I won't get back up  
'Cause I gave it all just to watch you live your life  
You didn't care for mine

Who said it? You said that  
It's you and I for forever  
Who said it? You said that

We'd take on the world together
