

forbidden fruit

Munn

I've been told "watch your back, stay on your toes"
Check your step you never know
Something sinister's close
And now I see how the devil gets to me
Luci' waits for one last sheep
'Cause I'm alone and weak

Here we go again and again and again
Running for my life 'cause I know how it ends
Falling for forbidden fruit I tasted, God I hate it
Here we go again and again and again
Running for my life 'cause I know how it ends
Falling for forbidden fruit I tasted, God I hate it
Here we go again

I've been sold on the lie that something I've been told
Is not so bad if no one knows
What you're doing, doors are closed
But now I see he was lying through his teeth
Still I crave what I don't need
God set me free

Here we go again and again and again
Running for my life 'cause I know how it ends
Falling for forbidden fruit I tasted, God I hate it
Here we go again and again and again
Running for my life 'cause I know how it ends
Falling for forbidden fruit I tasted, God I hate it
Here we go again

Crucify my flesh
Strip my bones of unholiness
Will I ever look like you?
Oh, God I'm dying to
Crucify my flesh
Strip my bones of unholiness
Will I ever look like you?
God I'm dying to

Here we go again and again and again
Running for my life 'cause I know how it ends
Falling for forbidden fruit I tasted, God I hate it
Here we go again and again and again
Running for my life 'cause I know how it ends
Falling for forbidden fruit I tasted, God I hate it
Here we go again
