

i hate you for this

Munn

We got too many problems
Without a way to solve them
I wish that I could just let you go
But I care too much still
And I don't wanna heal
You're the only thing I've known

You build me up and let me down again
I know
That loving me was easier in your head
And it shows

We got too many problems
Without a way to solve them
I wish that I could just let you go
But I care too much still
And I don't wanna heal
You're the only thing I've known

And now I hate you for this
And I know it's wrong
But I have nothing left to give
It's slowly sinking in
I'm on my own again

I'll just hide all my issues
Like I don't even miss you
Pretend that I'm happier now you're gone
I'm not doing just fine
I know you know I'm lying
But I'm afraid of moving on

You build me up and let me down again
I know
That loving me was easier in your head
And it shows

We got too many problems
Without a way to solve them
I wish that I could just let you go
But I care too much still
And I don't wanna heal
You're the only thing I've known

And now I hate you for this
And I know it's wrong
But I have nothing left to give
It's slowly sinking in
I'm on my own again

And now I hate you for this
And I know it's wrong
But I have nothing left to give
It's slowly sinking in
