

# maybe we're both right

Munn

I'm too tired for another fight  
Can we just go to bed  
I'm too tired to do this all night  
Can we just let it go  
'Cause maybe we're both right  
Maybe we're both right

'Cause we're making something  
Out of what could be nothing  
Now we're shouting at the top of our lungs  
We'll go round and round  
But baby if we both step down  
You and I could land on common ground

You and I  
Yeah you and I could make this count

Look up high tell me what you see  
Our kids and a little house  
In that same sky all I see  
Are clouds  
But maybe we're both right  
Maybe we're both right

'Cause we're making something  
Out of what could be nothing  
Now we're shouting at the top of our lungs  
We'll go round and round  
But baby if we both step down  
You and I could land on common ground

You and I  
Yeah you and I could make this count  
You and I  
Yeah, you and I could make this count

If I'd listen to hear you out  
Give it real thought  
And not shut you down  
If you'd hold on  
Let me catch my breath  
Just to respond  
In the way that's best  
Then you and I could land on common ground

You and I  
Yeah you and I could make this count  
You and I  
Yeah, you and I could make this count  
You and I could land on common ground
