

Only Human

Munn

I'm a bit of a mess
I'm a washed up drop out wreck
But I hope for the best
Not a lot going on for me now
There could always be less
I bet it's on the tip of your tongue girl
But give me a guess
Did I blow my shot? Did I lose you?

I know that I've always let you down
But I'm needing you needing you
I swear that one day I'll come around
So I'm asking will you help me yeah

Oh-oh baby
Won't you keep me on track
I've been messed up for awhile
And I'm trying to get back

Oh-oh baby
I've been way out of line
I will be the one you need
But it's gonna take time

I'm only...
Only human
Don't leave me
Only human
Don't leave me

I know in your head
You think you're a disaster
An actor never fit for the roll you play
But trust me I don't care either way
If you need me I'll stay

I know that I've always let you down
But I'm needing you needing you
I swear that one day I'll come around
So I'm asking will you help me yeah

Oh-oh baby
Won't you keep me on track
I've been messed up for awhile
And I'm trying to get back

Oh-oh baby
I've been way out of line
I will be the one you need
But it's gonna take time

I'm only...
Only human
Don't leave me
Only human
Don't leave me

Oh-oh baby
I've been way out of line
I will be the one you need
But it's gonna take time

I'm only human
