

## Dream in Red

## Murder by Death

I saw you walking down by the river  
Down by the water  
Dragging a heavy load  
What I saw  
I don't know

If I believe it  
Does it make it so

I saw you walking down by the river  
Down by the water  
I wish I had never gone

What I saw  
Left me cold

If I believe it does it make it so  
If I asked you would you tell me no

Down by the river's ditch, its where I die  
My body was broken, my wrists were tied  
Floating in the reeds and tangled in the reeds  
That's where this lies

Where I was walking down by the river  
Down by the water  
Dragging a heavy load  
What I saw, I don't know  
I dreamed of a red river  
I dreamed in red
