

Break Up

Murs

I hate you like you hate me
You're so hard to be together
I say it don't get lonely
But it's hard to stay forever

You said that you've moved on
You singing that new song
It's been a month and now you gettin' your groove on

Sometimes you can be a bitch
Always talking all this shit
Every time we call it quits
Yeah, I'm over it

Yeah

But girl I want you back, yeah
I'm starting to relapse
Cause I fell into the trap
I can't take this shit

I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)

Let's break up, up
And then we make up, up
And then we break up, up
Yeah, can't live without your lovin'
Till we break up, up
And then we make up, up
And then we break up, up
Yeah, can't live without your love, love

And usually I'm the type to let it slide
But everyday it's just fine
When I lay at bed at night
Everything reminds me of you
I can still smell your perfume
If I see you with your new dude
Ain't no telling what I might do

Sometimes you can be a bitch
Always talking all this shit
Every time we call it quits
Yeah, I'm over it

Yeah

But girl I want you back, yeah
I'm starting to relapse
Cause I fell into the trap
I can't take this shit

I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)

I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)

Let's break up, up
And then we make up, up
And then we break up, up
Yeah, can't live without your lovin'
Till we break up, up
And then we make up, up
And then we break up, up
Yeah, can't live without your love, love

Love, love, love, love, love, love, love, love, love, love, love, love, love,
, love, love, love, love, love, love, love, love, love, love, love, love, lo
ve, love, love, FM on your dial

I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)
I, I hate you so much right now (so much right now)

Let's break up, up
And then we make up, up
And then we break up, up
Yeah, can't live without your lovin'
Till we break up, up
And then we make up, up
And then we break up, up
Yeah, can't live without your love, love

Love, love, love, love, love, love, love, love, love, love, love, love, love,

Yeah can't live without your love

Break up, up
Break up, break up, up
And then we make up, up,
Make up, Make up, make up, up

Break up, up
And then we make up, up
Make up, make up, make up, up
Yeah, can't live without love, love
