Murs

Now I been in love with some greats
7's and some 9's and a couple crazy 8's
Wait then I met the perfect 10
My playa days were over I was ready to begin
Twin flames then other chicks was mid range
Ill communication like we share the same membrane
If you want it then I need it I will never be mistreated broke
the cycle won't repeat it
All my exes got deleted
New start one body but we two hearts
Made that shit official white check with a blue mark
Validated verified lost without you
Where am I if I had to live without your love
I would be terrified

Can't help but feel at ease
Whenever you're around
Can't help but feel bad
For everyone who ain't us right

My dear, my dear, my dear, we've been together for some years
To the point I don't feel whole when I'm without you is that we
ird
Never co dependent I remember self love
But sometimes I'm stuck so deep up in the dark I need a shove
You my get right the sunshine to midnight
Even when we have a disagreement it's a quick fight
Ive been working on myself so that I'm worthy of your radiance
You think that I'm just saying this come on now who you playing
with
Real love ride or die we real thug
Haters that'll try to separate us better kill us
Natural born killas I'm Mickey and you're Mallory
Your love is so sweet between the sheets it got me counting cal
ories

Can't help but feel at ease
Whenever you're around
Can't help but feel bad
For everyone who ain't us right

Heatwaves in September feels great to remember..
