

# If This Should End

Murs

So in love with you

I guess it's over now  
I guess you mad, giving me the cold shoulder now  
But when the first of the month about to roll around  
Don't worry about them bills, I'mma still hold you down  
You disappointed in me, you don't wanna smile  
But if not for yourself then do it for the child  
I've never been one to stay friends with my exes  
You can ask the one that moved out to Texas  
Cause Houston, we got a couple problems  
And all thee weeks of therapy never seem to solve 'em  
What are two of those to do  
I never thought this would be me and you  
And ooh, how I used to judge them other couples  
Never in a million years I thought we'd have the same trouble  
Pay all watch 'em while we living in this glass house  
I tried to hold on but now it's time to tap out

If this should end, I hope that we can be friends  
If this should end, I hope that we can be friends  
If this should end, I hope that we can be friends  
If this should end, I hope that we can be friends

I'll always love my Nintendo 64  
Even though I don't play it anymore  
Golden Eye will always have a special place in my heart  
Star Fox and Mario Kart  
Perfect Dark, man the list goes on  
But uh, we just can't let this go on  
See I grew up in a house with all the fighting and the fussing  
Mom screamed for help, me and my little bro rush in  
And I don't want this for him  
I always thought that I was better than him  
I said I thought I was, but it's getting harder cause  
I never seen a man who would fight this hard for love  
Without examples being set it's like you can't regret  
Living up to a standard that you never met  
No one ever really showed me the way  
So at moments like this all I could really say is

If this should end, I hope that we can be friends  
If this should end, I hope that we can be friends  
If this should end, I hope that we can be friends  
When this should end, I hope that we can be friends

I love the way you spend time with our son  
I love the way your sweat glisters when you run  
I love the way my name rolls off of your tongue  
I love the way you stay doing squats to tighten up your buns  
But I can't stand the way interact  
I send you bad vibes and you send them right back  
Somebody starting sentences, somebody gotta finish that  
Lost in conversation 'till we don't know where to listen at  
Marriage is a thing I hate that we failed at  
As we drifted apart, I hope we sail back  
Just like a song, it's too easy to write

Cause everytime I see you, we fight  
I always thought I need you in my life  
I always thought that my future needed a wife  
I gave my all and you did the exact same  
But now it's on to brighter days with different last names

If this should end, I hope that we can be friends  
If this should end, I hope that we can be friends  
If this should end, I hope that we can be friends  
When this should end, I hope that we can be...  
Friends
