

# In the Zone

Murs

For jury day dreams, reveal vivid thoughts  
Once told to me by, an idiot savant  
Receiving what I want and takin' what I need  
Sometimes the same thing like when I wanna get drunk and I need to be keyed  
Free my mind  
With my body in tow  
A nigga came a long way since slangin' indo  
Indeed  
Now the only time I follow is when the music takes the lead  
Been G'd  
Up  
Spit some shit to say  
But the G's been in my heart since placenta in my face  
Pen leads  
My soul across these streets  
Up and down like the Richter when I'm writin' to a beat  
MC's  
It's your final countdown  
Rapitalism 101 in the school of underground  
Since we'd  
Be better off without the bull  
I'm a always speak my mind and no punches will be pulled  
Ten G's  
I would take and make a million  
Underground tape hustlin', new age of drug dealin'  
Man please  
Take a look at what we buildin'  
Underground empire, new wave of drug dealin'

You are now in the zone  
Lay back and focus on the tone  
Forget about the troubles and the worries that you own  
You are now in the zone  
Lay back and focus on the tone  
Reflect on the past and the blessings that you own

I have thoughts  
On how to make a change  
Try to express them over beats  
Proper speech mixed with slang  
Then brought  
To the point of no return  
Ain't no time for lookin' backwards, there's a future to be earned  
Been taught  
To never half do my shit  
So I forever give my all until my physical calls it quits  
Been caught  
Tellin' friends I give up  
Drunk myself into depression, screamin', "I don't give a fuck."  
Then shots  
Were fired in my direction  
Definitely helped me realize that my life is blessing  
Say I ought  
To keep my head out of the clouds  
But I stay chasin' dreams with my head held proud  
Once sought  
The answers to existence

Won't know for sure until I'm gone  
So I'm on another mission  
Might rot  
In my grave unfulfilled  
But at least I did it my way  
And that's livin' how I feel
