

# Night Shift

Murs

Ayy, for real, though, I love my job  
We work, we work the night shift  
We work, we work the night shift  
We work, we work the night shift  
I'm up from like 6 in the morning to like  
We work, we work the night shift  
3 in the morning  
We work, we work the night shift  
Y'all niggas wanna take a lot of pictures and shit  
We work, we work the night shift

Engaged to the stage at an early age  
And it was years before I started getting paid  
For the love of the culture, the culture of love  
I was killing that stage, I was building my buzz  
I wasn't making shit that they would feel in the club  
'Cause I wouldn't talk about all the killing and drugs  
Yeah, I grew up with the crips and the bloods  
And while they was busy screamin' out, "Bitch, I'm a thug"  
I was really thuggin', I was sleepin' on floors and shit  
I was sellin' dope just so I could record my shit  
Turning dirty money into studio time  
My family told me I was crazy, I was losing my mind, but I  
Stuck to the script, I was glued to the grind  
If I didn't know shit, bitch, I knew what could rhyme  
Serve the sucka MC's standin' on the street corner  
Kill a cold instrumental and I make the beat warmer  
A former introvert until I put the pen to work  
Until my verses started turning heads like a tennis skirt  
Until the minimum was ten a show or ten a verse  
Now I fly on planes worldwide just to get to work

We work, we work the night shift  
Clock in for my shift soon as the lights hit  
Guaranteed to keep the mics lit  
One-two check and spit that hype shit  
Atmosphere, they work the night shift  
Rapsody, she work the night shift  
Graveyard shift, break of dawn  
Guaranteed to keep a party rockin' all night long

Expensive whiskey, chase it with a local beer  
A toast to y'all jokes, y'all just smoke and mirrors  
We don't rap over our vocals here  
Y'all niggas can't do karaoke for y'all whole career  
It appears to be popular  
The pantomime poetry just to fill your pockets up  
Probably why they ain't invite me to them Summer Jams  
I don't take it personal, fam, I understand  
That's hydro next to aregeno  
One hit of this shit and they already know  
That Mayweather versus McGregor shit  
This a whole different sport, y'all niggas better quit  
Sayin' what you do is emcee and rap  
Just because the words rhyme and the beat slap  
And it ain't generational, believe that  
'Cause niggas spit from Jaden Smith to G Rap

Every era has a Ja Rule or Little Boat  
There's the shit you listen to and the shit you quote  
I don't divide the lanes, I just stay in mine  
And you can hear it when I hit the stage and say a rhyme

We work, we work the night shift  
Clock in for my shift soon as the lights hit  
Guaranteed to keep the mics lit  
One-two check and spit that hype shit  
Tech N9ne, he work the night shift  
Run The Jewels, they work the night shift  
Graveyard shift, break of dawn  
Guaranteed to keep a party rockin' all night long
