

## Time Is Now

Murs

Yes, yes, yes, yes! We have our A-selection, featuring our brother Murs, featuring, featuring Miss Latoiya Williams, featuring, featuring, featuring big Snoop Dogg, produced by Niggarachi. Niggarachi! Entitled the "Time Is Now"!

Time is now, it's going down, in my town, time is now  
Cause it's going down! (In my town, right now!)  
Right now!

Look, not now, but right now, it's time to change the game  
A new style, something different, you know, uplifting  
New sound from the West that we all can get with it  
The Pacific to be specific  
Ain't another rapper on the whole coast this gifted  
Missed the magic, aristocratic, yeah, automatic, yeah  
Systematic, look, my grey anatomy bust through they academy  
Crushed the main frame, it changed the game radically  
Move with such agilely, crews to try to battle me  
Totally tear washing their teeths, another tragedy  
Never has the game seen such savagery  
The audacity, all of these rappers mad at me  
Rising so rapidly, I defy gravity  
Next up is Dogg, I thank y'all for having me!

Time is now, it's going down, in my town, time is now  
Cause it's going down! (In my town, right now!)  
Right now!

(Ride, ride!)  
Yeah, yeah, we like to float and ride  
Smoke when they lock, the homie got the rope and they glide  
They see us like smoke when they rot  
Huntin' rappers and they hoping they hot  
Gang bangers, yeah, they loc' on they block  
Low riders, yeah, stroke and they high  
College brains, yeah, they smoke on they pot  
'Till it's old gang cold, and it's meant to be sold  
Stay tuned 'till the next episode, when we ride and roll  
If he fake, he foe, if he real let the story be told  
In a land where you will be exposed  
OGs, hood rats, and the punk po-pos  
Hard to grab fo' toes, and dip low lows  
Ride slow with the top pulled back  
Pulling on some of that, sippin' on some 'yac  
Stars with the Mars, splurges with Murs  
Blank out and make out  
Stay way up, cause it's about to go down, for real

Time is now, it's going down, in my town, time is now  
Cause it's going down! (In my town, right now!)  
Right now!

I heard Jim Brown got the OGs talking peace  
Life without beef on these LA streets  
Something I thought was beyond belief  
Sunday, ain't nobody tripping at the beach  
Nine deuce troops and what happened to the movement  
And you drive-by shooting, nigga, what is y'all doing?

We gotta get up and change the dial  
The time is here, the time is now, yeah

Time is now, it's going down, in my town, time is now  
Cause it's going down! (In my town, right now!)  
Right now!

You're listening to the beautiful sounds of Latoiya Williams, and my main man Murs, featuring Snoop D-O double G, it's going down, produced by Niggarachi

Time is now, it's going down, in my town, time is now  
Cause it's going down! (In my town, right now!)  
Right now! (Now!) Right now (Now!) Right now (Now!)
