

Unbothered

Murs

I'm so unbothered
Don't get much better babe
That's what they meant
That's what they meant
I'm so unbothered
Don't get much better babe
That's what they meant
That's what they meant

As an individual I hung with the criminals
Never got put on, the homies had visuals
They saw me makin' my name they saw me gettin' fame
They saw a future for me, they didn't want me to bang
And it was strange at the time
If I could go back I wouldn't change they mind
Plus I put the hood on the map
Wasn't nobody bangin' Mid City like that
From the jungles to the B-Y's, I rep for these guys
Never had to build my career on havin' street ties
I told my story, comic books and skate boards
If you love yourself what you gotta be fake for?
Never been a drug lord, never been a shooter either
But I used to have a heater and I sold a little reefer
But that didn't define me
I was proud to put the past behind me

I'm so unbothered
Don't get much better babe
That's what they meant
That's what they meant
I'm so unbothered
Don't get much better babe
That's what they meant
That's what they meant

I ain't trippin', my Crippin' been weird
I was always a lil' different check the hair and the beard
The O.G.'s call me "Weird Cuz"
On the days in the Brook smokin' big bud
Before The Chronic came out
If I wanted to smoke that's where I had to hang out
Kids used to snitch used to say I was on drugs
Used to go to night school with a whole bunch of thugs
And they never ever pressed me
It was always fake gang bangers tryin' to test me
They had somethin' to prove
But I was so 'La Smoove' they couldn't fuck up my groove
The secret is confrontin' them
If you knock out one of 'em you never have to run from 'em
Words to live by, live by 'em son
I was always pro black I never lived by the gun

I'm so unbothered
Don't get much better babe
That's what they meant
That's what they meant
I'm so unbothered

Don't get much better babe
That's what they meant
That's what they meant
