Murs

He gon' say somethin' about  
Tits and lips  
We just gon' talk, just the lips

She thought she wasn't a slut  
'Cause she waited six months before she gave me the butt  
But so what? Was I supposed to feel special?  
Was the pussy really any better than the rest though?  
No, but for what it's worth  
I think the pussy is the greatest thing on this earth (Amen)  
It's like the hundred carat diamond  
That's naturally occurring and protected by a hymen  
Some women still seem to think (What?)  
That their pussy just a little more pink  
But as long as it's warm and the shit don't stink  
Ain't no coochie in the world that can make my dick shrink (Word up)  
What I'm saying here, people  
Is I believe all vaginas created equal  
Hers ain't better than hers  
Whether bald, full bush, or a little bit of fur  
Thick chick, skinny chick, really, pick any chick  
It don't make a difference 'less you got a real skinny dick  
Whether virgin or a whore  
The tightness all depends on the pelvic floor, look  
Multiple partners don't loosen up your grip  
That's pure bullshit and a man-made myth  
It's a whole bunch of muscles, soft tissue in the middle  
So if you can't fit, you should kiss her just a little  
Foreplay always opens up the doorway  
A universal truth from Africa to Norway  
If your pussy's tight, that don't make it the best  
If your pussy's tight, that means you're way too stressed  
To win a lot of women, I'ma keep it G real  
It ain't the size of your pussy, it's the level of your skill  
All that twerking on your socials  
It look good, but can you do it when you 'posed to?

Every girl got glitter in her pussy, homeboy, look, that's a fact  
You can put it on your face 'cause you like the way it taste or just plain o  
ld hit it from the back  
Now some girls think they got that unicorn pussy when it's really just all t  
he same  
So if you lick her clit and you give her good dick, then she might just scre  
am your name  
It goes G-L-I-double-T-E-R  
Homegirl, your pussy is a star  
I said G-L-I-double-T-E-R  
Homegirl, your pussy is a star

Tampons don't stretch your shit out, look  
Take two fingers and put 'em in your mouth  
Stretch it out, don't it bounce right back?  
Now your pussy got way more muscles than that, so  
Don't believe the hype  
Your pussy need dick like a plumber need pipe  
If you the type that like to shame sex workers  
But givin' up the pussy for a movie and a burger?

Then you the dumbass, and you the slut  
You can sell your panties for three times as much  
And not even have to fuck  
But honestly, you don't even gotta do it for the bucks  
Just realize, girl, that your pussy is power  
Go ahead and use it, you don't have to be a coward  
Keep it clean, keep it safe, most of all, keep it happy  
He don't hit it right, then you should never call him daddy
