

# Yesterday & Today

Murs

Yesterday I and today I  
Yesterday I and today I

Alright, alright I ain't getting out of bed today  
9 to 5 to survive, there's gotta be a better way  
Waking up early to punch in the clock  
How I'm lookin' grown man with my lunch in a box  
But my kids need socks and shoes,  
I'm walking through the office (boss yelling)  
Who you talking to don't you know on the streets I would've  
Never mind, the past is the past I gotta leave it behind  
But man back on the block I was a bonafide hustler  
Spot popping off until the police rushed us  
Handcuffed us I though I was gone  
Could've cried thinking now I'd miss my son being born  
But I was blessed, beat the case now I'm trying to reform  
But this white folks make it so hard to move on  
You gotta jump through hoops, anger management groups  
But the fact I'm still standin' here today is proof that

Yesterday I felt the most hated, I thought I couldn't take it, they said I c  
ouldn't make it  
And today I feelin brand new, I got nothing to lose, I'm bout to make moves  
Yesterday I felt the most hated, I thought I couldn't take it, I fought unti  
l I made it  
And today I feelin brand new, I got nothing to lose, get out my way move

On to the next, it was all about sex  
When I first met my little baby girl annette  
She was standing at the bus stop, sucking on a lollipop  
Eyes collard green lean thicker than a pork chop  
(stop) cause I don't eat swine  
But this girl was so divine, that I had to make her mine  
Called upon her a few times, she thought I was funny  
Fell for it like a dummy, it was all for the money  
(j-eah) growing up in the hood,  
You would think I'd understand, but I never understood  
Why she rarely came around when my dough wasn't good

Now you can call it puppy love, cause I got dogged out  
Now in all my notebooks, I got her name crossed out  
But she lost out, I just lost profit  
When she left me in the cold, heart broke like my pockets and

Yesterday I felt the most hated, I thought I couldn't take it, they said I c  
ouldn't make it  
And today I feelin' brand new, I got nothing to lose, I'm bout to make moves  
Yesterday I felt the most hated, I thought I couldn't take it, I fought unti  
l I made it  
And today I feelin' brand new, I got nothing to lose, get out my way move

You know the days when you just got the blues  
All stressed and depressed from just watching the news  
No matter what good you do, it seems you always get screwed  
Got you caught up in your feelings, now you off in a mood  
Shake that attitude and do what you can  
Set a couple goals, follow through with your plans

Time wait for no man, and tomorrows not promised  
So if she's still alive shoot a call to your momma  
Cause the fighting and the drama, its just not worth it  
Nobodys perfect ain't none of us worthless  
We all got a place and we all got a purpose  
Now I'm not taking y'all to Sunday service  
But you clap your hands as you stand up and work it  
Like you grand momma used to do that fan down at worship  
Spread it, pop it, and wave it in my face  
Put your hands around your waist,  
Let me rock it to the bass like

Yesterday I felt the most hated, I thought I couldn't take it, they said I c  
ouldn't make it  
And today I feelin' brand new, I got nothing to lose, I'm bout to make moves  
Yesterday I felt the most hated, I thought I couldn't take it, I fought unti  
l I made it  
And today I feelin' brand new, I got nothing to lose, get out my way move
