

When the river's raging
I'll be the levy
I'll be the steady hand that's holding on to you
I'll be the view
Your change of scenery
Let me be your way out when your walls are closing in so darlin
,

Gimme you on your worst day and I'll give you my best
When you only got 10 I'll be the 90 that's left
So go on and run me ragged long as your loving don't stray
Don't worry 'bout, meeting me in the middle
When I'm already running your way

I'll be the answer
To what you're praying
When you're pinned down in the foxhole
Right beside you when
The enemy surrounds

So gimme you on your worst day and I'll give you my best
When you only got 10 I'll be the 90 that's left
So go on and run me ragged long as your loving don't stray
Don't worry 'bout meeting me in the middle
When I'm already running your way

Gimme me baaaaad, gimme me ugly
Gimme me saaaad, pour it on me
I'll take anything and everything that ya haaaave

So gimme you on your worst day and I'll give you my best
When you only got 10 I'll be the 90 that's left
So go on and run me ragged long as your loving don't stray
Don't worry 'bout meeting me in the middle
When I'm already running your way

Don't worry 'bout meeting me in the middle
