

After Midnight

Muscadine Bloodline

They say I don't have good intentions
Yeah, they might be right, a, a bad decision
And it makes sense you're on the fence
Trust me, we'll be back before the break of dawn
I'll pick you up about the time your parents go to sleep
We don't care if we don't sleep a wink

Well, there's somethin' 'bout bein'
Somewhere you ain't supposed to be
You and me, burnin' down the night
Well, there's somethin' 'bout this small town moonlight
Showin' off the little bit of trouble in your eye
Let's disregard what our mamas and our daddies think is right
Turns out, sometimes, good things happen after midnight

The night is young
So let's not waste it 'cause the stars are out
And they ain't waitin' on us
Let's find out the perfect route
The road we know we shouldn't go down

Well, there's somethin' 'bout bein'
Somewhere you ain't supposed to be
You and me, burnin' down the night
Well, there's somethin' 'bout this small town moonlight
Showin' off the little bit of trouble in your eye
Let's disregard what our mamas and our daddies think is right
Turns out, sometimes, good things happen after midnight
