

Deer in the Headlights

Muscadine Bloodline

Boy let's be rational
I know that you love her
So don't blow your cover cause she barely knows your name
So just take it slow, play it cool
And don't lock your legs
Just in case they go numb here I come with the stumble
I don't have the words I ain't rehearsed it this far

Now that I'm farther, a fish out of water
I'm dying, I am, a deer in the headlights
Here in your limelight tonight
Courage don't fail me now

If I fall on my face well it's worth the hair of the dog
If I wake up without you, what good waking up at all
It's getting late, so head straight, as the crow flies
And one steps just one step close to calling you mine

I don't have the words I ain't rehearsed it this far
Now that I'm farther, a fish out of water
I'm dying, I am a deer in the headlights
Here in your limelight tonight
Courage don't fail me now
