

Goose Chase

Muscadine Bloodline

We made the breakup take too long
We let the goose chase carry on
We kept the score with wrong for wrongs
Hindsight, it might be what writes the song

Took the road that wasn't high
The way we left it wasn't right
I couldn't sleep (no, you weren't sleeping)
Couple of vampires in the night
Just bleeding out and bleeding dry
When I guess we just could've said goodbye

We bear the burden and the blame
Laid in the bed of the mess we made
Well, there ain't no victims in the game we played
It takes two to tango, as we go walking on the

Road that wasn't high
The way we left it wasn't right
I couldn't sleep (no, you weren't sleeping)
Couple of vampires in the night
Just bleeding out and bleeding dry
When I guess we just could've said goodbye

For God's sake, why we keep on going on the
Road that wasn't high
The way we left it wasn't right
I couldn't sleep (no, you weren't sleeping)
Couple of vampires in the night
Just bleeding out and bleeding dry
When I guess we just could've said goodbye
