

## Put Me In My Place

Muscadine Bloodline

Never been the one for changin'  
Or ever hangin' around  
Got so used to always runnin'  
Never becomin' tied down  
Meetin' you it made me question  
Where I stand right now

One foot in and one foot out  
It's how it's been until right now  
I'm over all my lyin' and the leavin'  
I was selfish unprepared  
I can't blame you if you're scared  
But believe me you're the girl  
That I've been needin'  
The chance is yours to take  
My heart is yours to break  
So put me in my place

Bet ya friends could list some reasons  
Why you should leave me tonight  
I can't argue what they're sangin'  
But I ain't cavin' this time  
Cause you're a different kind of feelin'  
That's hittin' me right now

One foot in and one foot out  
It's how it's been until right now  
I'm over all my lyin' and the leavin'  
I was selfish unprepared  
I can't blame you if you're scared  
But believe me you're the girl  
That I've been needin'  
The chance is yours to take  
My heart is yours to break  
So put me in my place

I hope it's next to you  
Tell me what to say,  
Show me what to do

One foot in and one foot out  
Ain't the way I'm feelin' now  
I'm not lyin' when I promise I'm not leavin'  
I was selfish, unprepared  
I can't blame you I'm just as scared  
But believe me you're the girl  
That I've been needin'  
The chance is yours to take  
My heart is yours to break  
So put me in my place

Yea, the chance is yours to take  
My heart is yours to break  
So put me in my place
