

Euphoria

Muse

Shut down
We are growing spiritless
If no one cares, then who is gonna save us?
Give us euphoria

Worn out
Everything will fall apart
So shine a light and warm up this heavy heart
And give us euphoria

Brooding
I need renewing
I want satisfaction
A gut reaction

Give us euphoria
Give us euphoria
It's been all work and no play
Give us euphoria
Give us euphoria
I need to numb all the pain

Wake up
We're becoming restless
Our last hope and only you can save us
And give us euphoria

Sealed off
We are running out of air
So start a fire and spice up this love affair
Give us euphoria

Brooding
I need renewing
I need satisfaction
A gut reaction

Give us euphoria
Give us euphoria
It's been all work and no play
Give us euphoria
Give us euphoria
I need to numb all the pain

Euphoria
Give us euphoria
It's been all work and no play
Give me euphoria
I need euphoria
I need to numb all the pain
