

Life

Mushmellow

Life will murder
Makes you colder
It's one more step
I'm standing next to you
Remember all that shit you put me through

Sold out honor
Trapped in corner
Away from violence
Million miles from you
Remember all that shit you put me through

If I walk away
Then you'll honored me
I can feel your pain
Feel it so unreal
I can feel your tragedy

Even me... Even me

If I walk away
Then you'll honored me
I can feel your pain
Feel it's so unreal
I can feel your tragedy

Life will murder
Makes you colder
It's one more step
I'm standing next to you
Remember all that shit you put me through

If I walk away
Then you'll honored me
I can feel your pain
Feel it's so unreal
I can feel your tragedy

Even me... Even me

If I walk away
Then you'll honored me
I can feel your pain
Feel it so unreal
I can feel your tragedy
