

## Simple Survival

Mushroomhead

The shadow within me  
The sorrow at my feet

Push the colors from the make up

Drop your feelings at the door  
Has anybody here had enough  
Walking in on so much more  
Gonna make you give up

I wanna see you get up

I said your the only one  
Whats your name  
Who do you love  
I wanna hate you kill you  
Treat you like ive have enough

Keep breaking the shame  
Take away all i wanna say  
Regretting the day  
You dont believe in me  
Ill show you just what you wanna see  
The end in me

Gonna lead the revival  
No simple Survival  
For me
