Musiq Soulchild

Ayye, uh  
Shawty tell me what's on your mind  
And I promise to try to do what I can do to change how you feel inside  
Ain't nobody here but you and I  
So you don't have to hide here with me  
You can just be you girl

Cause I know  
what it feels like  
when you've got so much goin on in your life  
But what nobody can see  
is that you can hardly breathe  
And your at the point where everything's too much

(Just) Turn the lights down low  
Find some music  
Turn off your phone  
Come to me  
Let me be  
Your medicine  
I can be  
Your medicine  
(and I bet I can take all your pain away)  
Medicine  
(and I bet I can take all your pain away)  
Come to me  
Let me Be  
Your medicine  
I can be your...

(ayye)  
Look  
Everybody's gotta make a dime  
But when do you make the time  
To break away  
Find some things to do to make you smile  
Cause it can't be good for your health  
Always tryin to please somebody else  
But now and then you gotta think about yourself

Cause I know  
what it feels like  
when you've got so much goin on in your life  
But what nobody can see  
is that you can hardly breathe  
And your at the point where everything's too much

Medicine

Whatever is hurting  
Got something I think can work  
You take for body aches nerves or wherever it may concern

If the pain keeps getting worse  
Just breathe  
Breathe  
Just Breathe  
Breathe  
Breathe  
Til the whole world fades away

(Just) Turn the lights down low  
Find some music  
Turn off your phone
